

Nan Heal is working with us in school as our Parent and Family Support Adviser. Nan is available to listen to and to support parents and carers who may want someone to talk to in confidence. All families go through periods of difficulty and have different reasons for being under pressure.

Nan can arrange to meet you privately in school, or at home or somewhere convenient for you, to share ideas and to work with you. Now that she is part of the Taunton Local Service Team she also may be able to refer you to other agencies that can help.

But sometimes just a coffee and a confidential chat may suit you best. As always Nan can be contacted directly on 07919 540214 in term time and also during the school holidays.
